## Interested In Log Siding But Concerned About the Ongoing Maintenance?

With our NorthWoods Collection Log Cabin Seamless Steel Siding, a simple rinse of the hose is the only annual maintenance needed - as opposed to conventional log siding that requires costly staining and caulking every three to four years. Made of heavy gauge steel, our NorthWoods Collection Log Cabin Seamless Steel Siding is custom manufactured on site to an exact length eliminating all of those unattractive seams. A custom manufactured foam backer provides superior siding strength and rigidity.

## Warm, Cozy and Durable

When our NorthWoods Collection Log Cabin Seamless Steel Siding is applied, your home will be wrapped with a warm layer of insulation. As each course of siding is installed, a custom made foam backer is inserted behind the log contour ensuring long lasting durability and beauty. Enjoy your maintenance-free log home for years to come and never again worry about bugs, woodpeckers or fading...ever!

JUST

## Nature's Artistry...Technology's Convenience

Rustic charm, a warm woodsy appeal, and a maintenance-free lifestyle are all great reasons for choosing United States Seamless' NorthWoods Collection. Our exclusive ceramic hybrid paint finish enhanced with DuPont™ Teflon® surface protector gives your home's exterior an easy clean, stain resistant finish. Backed by a lifetime warranty, our NorthWoods Collection features other important advantages over wood - it doesn't burn, bugs hate it and it drives the woodpeckers crazy! Not to mention, our environmentally friendly NorthWoods Collection product eliminates the need to cut down trees, while allowing your home to be transformed into a beautiful log home.

**CoolPaint**  
TECHNOLOGY™

**Our NorthWoods Collection Log Cabin Seamless Steel Siding is specially designed to tie into our soffit, fascia and designer corners.**

NorthWood's Collection features an exclusive ten-step coating process that guarantees endurance. This unique paint process is fortified with a ceramic hybrid paint finish enhanced with DuPont™ Teflon® - giving your home a tough exterior finish that offers extraordinary longevity. NorthWood's Collection finish is also enhanced with a Cool Paint Technology™ that uses infrared reflective pigments in the paint to help improve the energy efficiency of your home.
