# COOKING NEVER LOOKED SO GOOD.

Design is an expression of our times. Trends and new products come and go, but some succeed in remaining attractive and functional for many years. *Why is that?* Longevity and practicality are important. But the quality of the design is a major factor in any enduring product.

ELEGANT MEETS ECONOMICAL.

With Crystal's *Current* product line you can determine how much you want to spend based on: design, door style, wood and finish.

DETAILS MAKE THE  
DIFFERENCE...MADE TO LAST.

The secret of the *Current* finish collection, whether painted or stained, the finish is meticulously applied by hand in several coats. The last coat consists of a special protective varnish that is very durable and easy-care. A UV inhibitor also protects against fading while maintaining color.

SPACE IS PRECIOUS...WHY NOT FIND  
A PLACE FOR EVERYTHING?
